

EP Engineering's Training Programmes

GEOLOGY & GEOPHYSICS

- Intermediate and advanced software training courses by Geoteric:
 - Introduction and advanced utilization courses
 - Noise attenuation and spectral shaping
 - Advanced data conditioning
 - HD Frequency Decomposition & RGB blending
 - AI & machine learning interpretation
- Theory and software training courses by IkonScience:
 - Reservoir characterization and modeling
 - Rock physics essentials
 - Geomechanics
 - Pressure and Overpressure in the subsurface
 - Seismic Data Conditioning and AVO conversion
- Introduction to GEO level 1 & level 2 by Geologix:
 - Well operations log display
 - Time based log display
 - Offset wells correlation
 - Composite log generation

ENGINEERING & INSTRUMENTATION

- Product introduction and operation trainings by Turner Designs Hydrocarbon Instruments:
 - Oil in water analysis fundamentals & regulations.
 - Product operation principles & technology.
 - Product SOP for calibration & analysis of on-line and portable units.

IT CONSULTANCY

- IT Specialized training courses by Wizard Innovation:
 - SAP MM, SAP ABAP, SAP PM utilization enhancement.
 - Development, management and integration of data with Microsoft SharePoint.
 - Mastering cloud architecture with Microsoft Azure.
 - IT Sales and Marketing techniques.

HEALTH, SAFETY & ENVIRONMENT

- Oil spill preparedness and response training courses by OSRL:
 - Shoreline Site - Supervisor (IMO Level 1)
 - Oil Spill Clearance - Scene Commander (IMO Level 2)
 - On-Scene Commander - Asia Pacific (IMO Level 2)
 - Oil Spill Response Management (IMO Level 3)
 - ICS/IMS300 for Expanding Incidents
 - Crisis Management
 - Dispersant Awareness and Monitoring
- Process safety training courses by PSRG:
 - Developing an effective process safety management system.
 - Process Hazard Analysis team leader training.
 - Layer of Protection Analysis (LOPA)
 - Mechanical integrity and RAGAGEPs for Process Safety Management
 - Incident investigation
 - Bow-tie analysis
 - Quantitative Risk Analysis
 - Dust Hazard Analysis
 - Management of Change
