

EP ENGINEERING SDN BHD

(271041-A)

A large offshore oil rig structure is shown against a sunset sky over the ocean. The rig is a complex of yellow and grey metal frameworks, including pipes, ladders, and cranes. The sun is low on the horizon, creating a golden glow and reflecting on the water's surface. The sky is filled with soft, grey clouds.

COMPANY PROFILE

EP GROUP OF
COMPANIES

POWERING THE OIL & GAS SECTOR IN MALAYSIA & SOUTH-EAST ASIA

Motivation is the catalyzing ingredient for every successful innovation.

INTRODUCTION

EP Group was established in 1985 as a professional and technical manpower provider to the upstream sector of Oil & Gas in Malaysia and internationally, as well as providing products and services such as oilfield equipment supply and its related services, specialised oilfield software and related consultancy services, with ever evolving scopes to best cater for our Clients' needs.

ABOUT US

- Providing full spectrum of Oil & Gas professionals meeting the stringent requirements of Upstream Oil & Gas.
- Providing Oilfield Equipment and Consultancy Services, by a strong team of in-house and partner specialised technical engineers.
- Involved in special onshore projects and offshore installation works.

Wherever we operate, we follow the in-country laws and regulations and conduct our business in a socially responsible and ethical manner.

History & Overview

30+ Years

Malaysia Oil & Gas Provider

97%

Overall Satisfaction

RECOGNIZED EXPERIENCE AND EXPERTISE
IN DELIVERING SUCCESSFUL OIL AND GAS
PROJECTS.

Engineers from every technical discipline work together
designing and realising development projects:

- Geophysicists
- Geologists
- Reservoir Engineers
- Petroleum architects
- Operators
- Project Engineers
- Drillers

Innovation is always at the forefront in each of these
disciplines and specialties. This enables us to push
technological limits, provide developments that
are ever-safer, more efficient and more environmentally
friendly at a lower cost to maintain our competitive
advantage.

We are globally integrated oil and gas company, with
the focus on ensuring that our operations worldwide
consistently deliver economic, social and environmental
benefits.

Our personnel are technically and commercially competent and experienced in various disciplines. We are ISO9001:2015 certified and all our operations procedures, are in accordance to our Quality Management System.

**Recruitment
Solution
Provider**

**Oilfield
Equipment
Industry**

**Consultancy
Services**

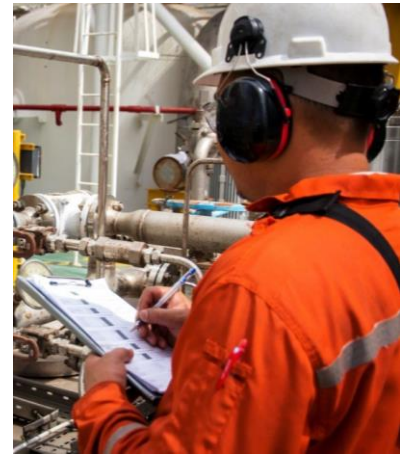

**Onshore &
Offshore
Installation**

>> Recruitment Solution Provider

EP group currently provides experienced O&G professionals to more than 10 countries around the globe. It is our aim to provide valued propositions to our clients in the oil and gas sectors. We deliver our services professionally, and in a timely manner.

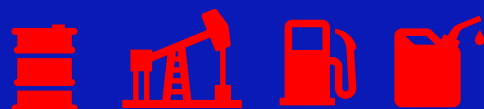

“THE RIGHT SOLUTION, THE RIGHT QUALITY, AT THE RIGHT TIME ”

We have been and are still providing full spectrum of multinational Upstream O&G professionals meeting the stringent requirements and expectations of the Oil & Gas Producer.

Our scope of supply covered but not limited to the following categories:

- Seismic Audit, Seismic QC, Seismic contract administration, Seismic Interpretation
- Geological and Geophysical consultancy
- Reservoir Engineering
- Drilling and Completion
- Project Management Team from FEED, Detailed Engineering
- Discipline Engineers, Electrical, Instrument, Process, Civil, Structural
- Control Automation, Telecommunication
- Mechanical (Static Equipment, Rotating Equipment, Pipelines, Piping)
- Supply Chain/Procurement/Document Management
- Contracts, Planning, Cost Engineering, Quantity Surveying
- Construction & QA QC Inspection, Completion, Commissioning and Start Up
- Transportation and Logistic consultancy
- Special Installation works
- Production Operation and Maintenance
- QHSE
- Inspection Services

>> Products and Services for the Oil & Gas Industry

- Drilling Bits
(PDC and Roller Cones Bits)
- Down Hole Tools
(completion Equipment)
- Drilling / Cementing Equipment
- Pumps
- Cranes
- Analyzers - Oil in Water Monitor
- Valves
- Produced Water treatment
- Fire and Gas Equipment

- Marine Equipment
- Marine Hoses
- Marine Seismic Acquisition
- Software - Drilling and Rock
Physics Software & Consultancy
- Software - GIS & Geosciences
Application Data Management
- Hydrogen Sulfide H₂S
Safety Services
- Risk Management Services
- Integrated Emergency
Preparedness and Impact
Response Services

Leading Edge Technology

We actively seek to introduce new Technology and Innovation in providing solutions to oil and gas industry in the following areas:

- Internet of Things (IoT)
- Artificial Intelligence
- Big Data Analytics
- Cloud Computing
- 3D Modelling & Visualization

>> Oilfield Consultancy Services

To further add value to our Recruitment Solutions Provider Service, EP had also extended our Capability to include consultancy in the following areas, either independently or in conjunction with Principals.

- HSEQ consultancy, including Behavioral Safety
- Drilling QA/QC audit
- Rig Inspection Service
- Reservoir Consultancy, Full Field Review
- Production Technology
- Recruitment Agency Service

We maintain substantial data base system of active oil and gas professionals accumulated through the past thirty years of experience.

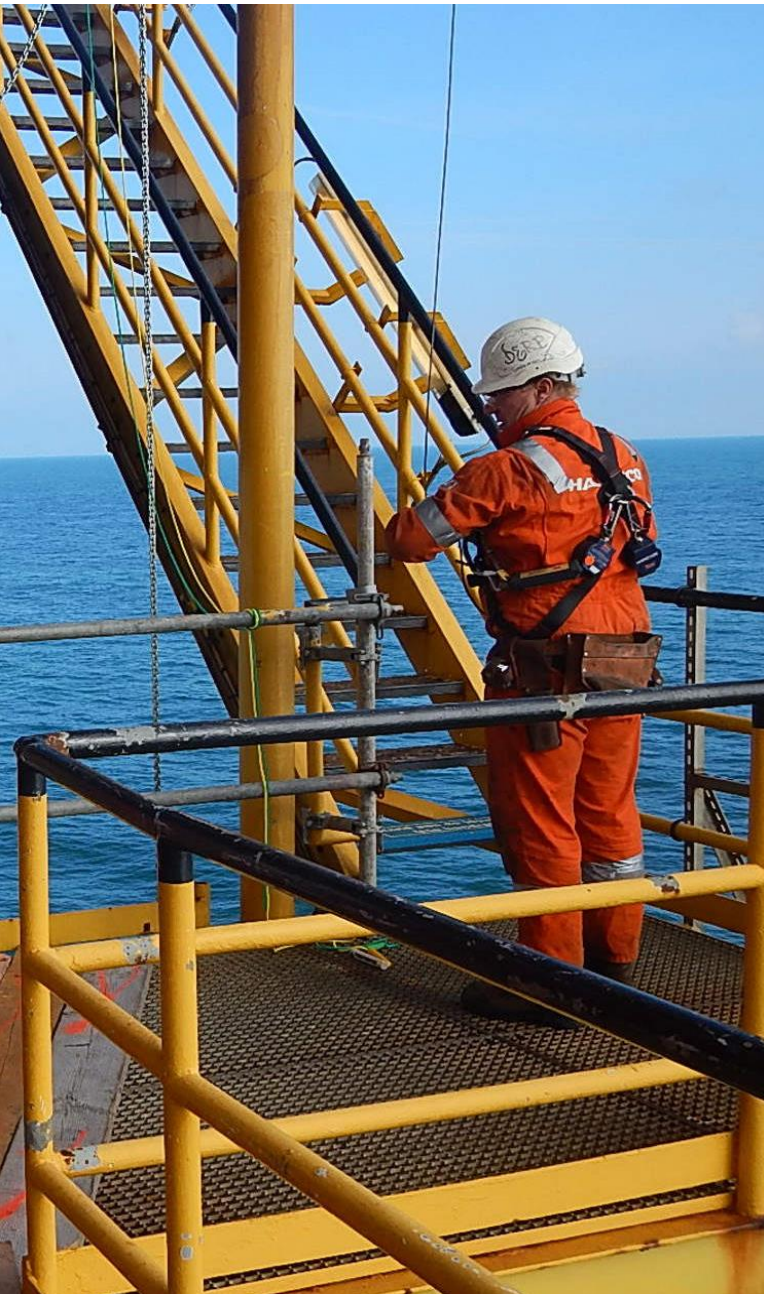

This resource has given EP a leading advantage in providing various categories of Consultancy works.

>> Special projects for onshore and offshore installation works

- Project manager of multi disciplines works for oil & gas onshore projects, independently or in conjunction with others.

We have undertaken works in the following areas:-

- Process Skid/Module – Bespoke compact design Process packages.
- High Pressure Control System – Provide Cost efficient for Maintenance, Service & spare parts HPU,TUTA & TUTU.
- Calibration & Recertification -Cover Various instruments used for Low, Medium also High pressure system & oil in water Analyzer.

PRODUCTS, SOFTWARE AND CONSULTANCY

MECHANICAL PRODUCTS

- Centrifugal Pumps
- Rotary & Reciprocating Positive Displacement Pumps
- Manual & Control Valves
- Produced Water Treatment Skid
- Drill bits
- Casing and centralizer
- Float equipment
- Wastewater treatment
- Chemical injection system
- Hydraulic Power Unit
- Topsides Umbilical Termination Unit

ELECTRICAL & INSTRUMENTATION PRODUCTS

- Oil in Water content monitor
- Helideck lighting
- Navigation Aids System
- Gas Detector

SOFTWARE

- RockDoc by Ikon Science
- GEO & Well XP by Geologix
- Norsar 2D/3D, SeisRox & Velrox by Norsar
- AI-powered Seismic Interpretation by Geoteric
- Player by GIS-Pax
- S3GRAF by Sciencesoft
- Trinity, Genesis, KinEx, T3

CONSULTANCY & SERVICES

- Pore pressure study
- Geomechanical Study
- Seismic Modeling
- Seismic Acquisition Service (OBN and Streamer)
- Asset life extension third party assessment
- Asset Integrity Monitoring and Assessment
- Industrial Hygiene Services
- HSE related consultancy
- SAP System Development
- Oil Spill Consultancy
